Forecast for Saturday 09 Jul 2022

Weather: Low cloud through the early hours breaks up soon after dawn. Any remaining patchy low cloud will soon disperse to give a dry warm, sunny day. A clear evening and start to the night, but patchy low cloud in the west overnight.

Chance of cloud-free hill tops above 800m: 80%.

Low cloud and visibility: Very good visibility. Some patchy cloud on the lower slopes of the western Fells early morning, but this soon dispersing. Some thin patchy cloud may reform around 500m across western Fells around dusk.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

High UV levels will give a risk of sunburn. The higher Fells are likely to be above any early morning cloud.

Forecast for Sunday 10 Jul 2022

Weather: Low cloud or fog in the valleys through the early hours and into the morning in the glens, but highest Felltops likely to be above the cloud. Low cloud will disperse by late morning to give a sunny warm afternoon. Dry and mostly clear overnight.

Maximum wind: West 5-10 mph, gusting 15 mph.

Chance of cloud-free hill tops above 800m: 70%

Low cloud and visibility: Very good visibility outside of low cloud. Valley fog, lifting to around 500m by mid-morning, but tops above around 800m above the cloud. Low cloud disperses by late morning.

Temperature: **Valleys:** Plus 13 Celsius rising to 19 Celsius
At 800m: Plus 10 Celsius rising to 14 Celsius
Freezing level: Above the summits.
